

## Case Study: Collecting data for CDDS

The **UK Company of the Database of Diplomats** is working with **Staff India** to collect data of diplomats from all over the world.

### PAINS AND SOLUTIONS:

1. The client wanted to collect information about diplomats and politicians from all over the world in order to create a database.
2. The process is very long and will need a long time, maybe a few years. So he needs an affordable solution to make this happen.

### THE RESULT

The Client has started with 5 remote employees from Staff India and started to build the database.

- The client got an affordable solution to make this big project happen.
- The remote team of 5 full-time employees is working mostly independently with little guidance.
- Reduced up to 80% cost on staff salaries.
- The client has gathered a huge amount of data to serve its clients and still counting.

Staff India offers dedicated virtual employees to our clients for the various back office roles. This could be a wide range of roles from web developers through to multi skilled virtual employees.

**You are an individual, not a number. We value all our clients.**
