

Case Study: Prepare the tours for Properties

The Leading **UK Property Tour Makers** is working with **Staff India** to prepare the tours to UK properties

PAINS AND SOLUTIONS:

1. The client has the technology in place, but they need humans to add the different pictures of the properties and key features of them.
2. The process requires a great amount of time in order to present the properties perfectly and make them attractive, thus it involves significant cost if done with local employees.

THE RESULT

The Client started with 6 remote employees and fully train them on the process. He then added another 5 members who were trained by the initial 6 employees.

- Together the team is producing a significant amount of property tours as the business grows.
- The remote team is working mostly independently with little guidance.
- Reduced up to 80% cost on staff salaries.
- The client also has some designers among the team whom they are using to create branding materials.
- The client business is running really well and he is thinking of expanding the business in other countries, thus will probably need a larger team soon.

Staff India offers dedicated virtual employees to our clients for the various back office roles. This could be a wide range of roles from web developers through to multi skilled virtual employees.

You are an individual, not a number. We value all our clients.
